

Foster Innovation

Innovation Hub

“Accelerating Innovation through holistic partnerships and building a sustainable start-up ecosystem”

Located in Hyderabad, Telangana T-Hub enables and empowers innovation, providing an ecosystem that **bridges the gap** between entrepreneurs and corporations with the next big idea.

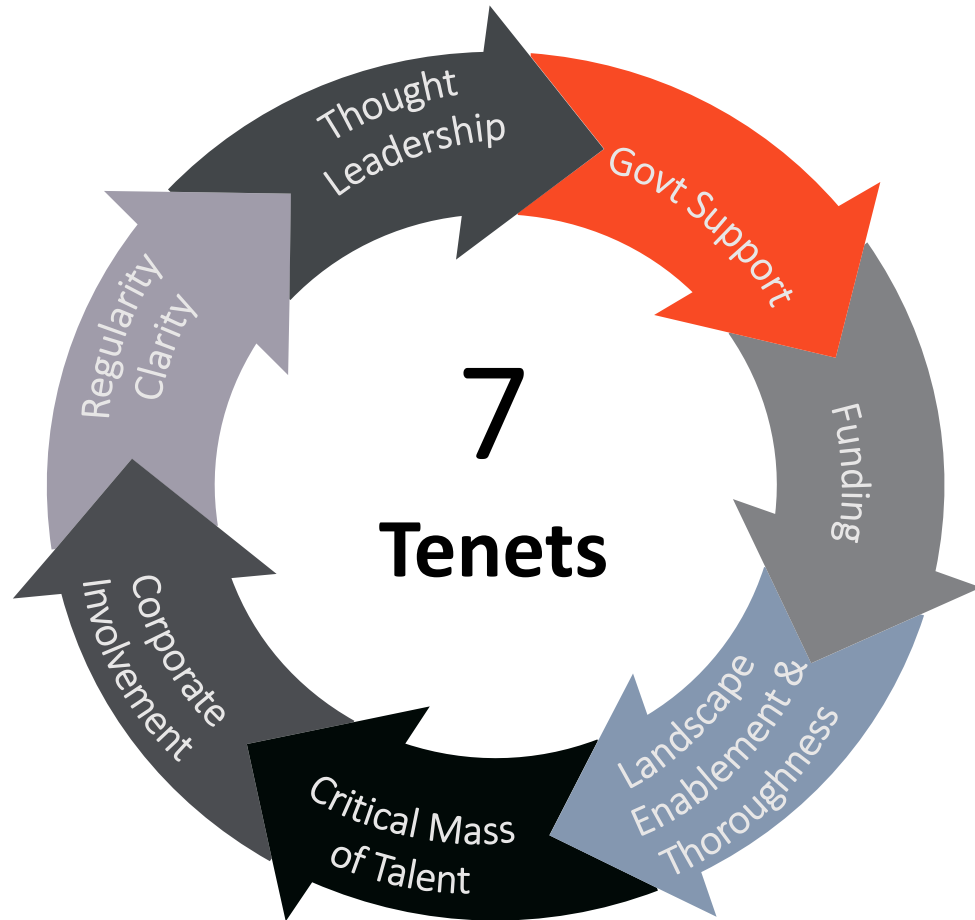

In **partnership** with the Government of Telangana, IIT, the Indian Institute of Business, the National Institute for Legal studies and Research, and the private sector.

T-Hub acts as the innovation intermediary and business incubator. It has become **India's pioneering innovation ecosystem** and is the world's **largest innovation campus**.

Over the last six years, emphasized on 6Ms (**Mentors, Market, Motivation, Manpower, Money, Methodologies**) and 2Ps (**Partnerships & Policy advisory**) framework with a mission of driving results and collaborations.

Over **1800+ Indian and international start-ups** have benefitted from it. T-hub has delivered **100+ state-of-the-art innovation programs** thus far, impacting start-ups, corporations, and other innovation ecosystem stakeholders.

Seven Tenets

- Thought Leadership

T-Hub facilitates a meeting ground for entrepreneurs, students, and citizens with leading organizations in the world. T-Hub guides Telangana and other state and central government organizations. Real emphasis is placed on thought leadership and mentorship in all its responsibilities.

- Government Support

With the backing of the Telangana Government, T-Hub is working towards building India's largest facility for innovation and entrepreneurship. T-Hub connects governments worldwide to pioneering technology entrepreneurs, enabling government agencies to better serve their citizens and partners.

- Funding

Entrepreneurs

One of the biggest problems facing any entrepreneur is the lack of funding. With T-Hub, entrepreneurs have access to a network of investors. It facilitates investors toward high-yielding opportunities and deal flows, globally.

- Landscape Enablement & Thoroughness

Establishing an environment essential for an innovation ecosystem to work, by cutting out all the pain points of collaboration. T-Hub creates a landscape that drives meaningful measurable outcomes.

- Critical Mass of Talent

With a large talent pool within the ecosystem, T-hub helps channel employment and internship opportunities with corporates and government bodies.

- Corporate Involvement

Emphasis on creating a culture of entrepreneurship and innovation helps corporates focus on new opportunities, solutions, products, and services faster and cost-effectively.

- Regularity Clarity

Guiding various elements within T-Hub's ecosystem on the government's regulations and regulatory framework. It advises start-ups, corporates, and other government agencies on how to work alongside the government.

T-Hub Ecosystem

Start-ups

Partner-based learning, regular meetups with industry leaders, world-class workspace, service provider credit, and peer groups foster the entrepreneurial spirit.

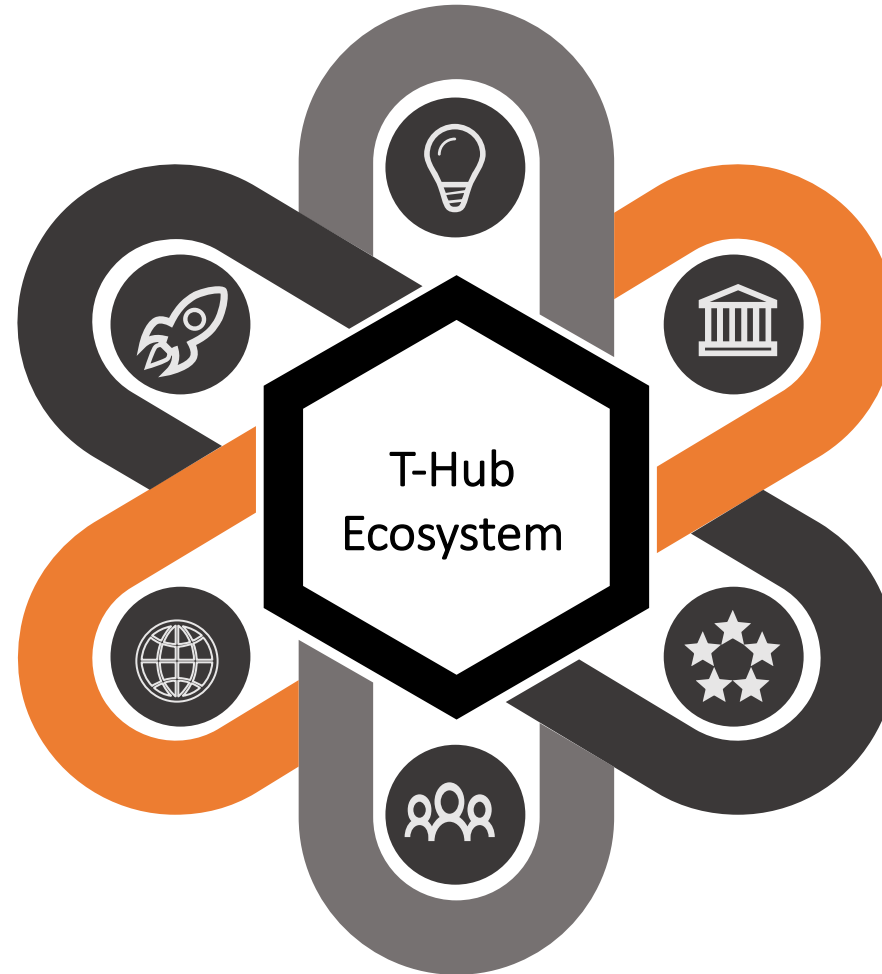

Corporates

Enable corporates to transform their business models and drive business value

Other Stakeholders

Academia, investors, mentors, ecosystem enablers, service providers, and the government

Incubation Program

The state-of-the-art incubation program is the largest in India and having global ties allows start-ups to look for opportunities globally.

Resources

Multiple channels of information and support including webinars, podcasts, white papers, case studies, blogs and newsletters

Events

800+ Events conducted in partnership with mentors, academia, service providers, investors and the government
